

INFORMATION SHEET  
Tasting Tour in Vigna di Pettineo

The tour includes a guided visit of the vineyards and the experimental cellar located in Pettineo, a small rural village where, until the 60', farmers lived tied to their vineyards. The vineyards, molding between the ancient olive groves and citrus fruit trees, are grown only on the basis of organic farming by creating, in a natural way, a system of biodiversity. The old winery is located in the centre of the vineyards.

Our offer is based on the following proposals:

**Tasting Experience A**

Guided tour of the vineyards and the cellar

Tasting of 4 wines

15 € for each person

**Tasting Experience B**
